

# Xanuun yareynta waqtiga foosha: sidee doorashooyinku

## bay kala duwan yihii?

Hababka loo bixiyo daawo	Daawada loo yaqaan 'Entoonoks' (gaas iyo hawo)	Irbadda daawada loo yaqaan 'Betidiin' ama 'Diyamoorfiin'	Xanuun yareynta oo hooyada ku qiyaasanayso wax faleebbo ah (loo yaqaan 'PCIA')	Suuxinta dhabarka ama daawo isku jirta mid xanuunka jebisa iyo mid suuxinta laf-dhabarka (CSE) oo loo yaqaan 'Sbaynal Ebiduural'
<b>Waa maxay?</b>	Daawadan waa mid isku jirta naytrojiin oksid iyo oksijin	Daawada loo yaqaan 'Betidiin' ama 'Diyamoorfiin' waa lagugu duro muruqa gacanta ama lugta.	Qiyaas yar oo daawada la dhaho 'Fentanil' ama 'Remifentanil' oo aad ka helaysid falleebbo oo gacanta kaaga durran oo aad qiyaasanaysid adoo adeegsanaysa aaladda oo kontoroolkeeda aad haysatid.	Daawada "Ebiduuralka" iyo midda xanuu jabinta ayaa lagu muda dhabarka iyadoo la isticmaalo tuubbo yar oo ay ka soo baxayso daawada nerfaa seexinaysa. Tan looma qoro fooshu billowgeeda ama aakhirkeeda.
<b>Maxaad sameynaysaa?</b>	Waa in aad daawadan ku neefsatiid afshareer ama wax kale oo yar oo lagu neefsado.	Waa lagugu durayaa gacanta ama lugta.	Mar kasta fooshu ay ku qabato waxaad tuujinaysaa aaladda badhankeeda si aad u siiso naftaada daawada.	Waxaad ku fadhiisto kursi oo madaxaaga saar jilbahaga hana dhaqdhaqaqin muddo tobani daqiqo ah inta irbadda lagugu geliyo.
<b>Intee bay daawadu xanuunka joojisaa?</b>	Caawimo dhexdhexaad ah.	Inta badan waa in yar. Waxaa laga yaabaa in ay yaraynayo welwelka.	Inta yareynta xanuunku waa kala duwan tahay. Inta badan haweenku waxay isticmaalaan daawada 'Entoonoks' sidoo kale.	Caadi ahaan aad ayay u wanaagsantahay. Waxaa surtagal ah in tobankiiba hal mar si wanaagsan u shaqayn waydo oo la beddeko.
<b>Intee ayay qaadataa daawadu si ay jirka u gasho?</b>	Isla markiiba.	Diyaarinta irbaddu waxay qaadan doontaa shan daqiqo, kaddibna 30 daqiqo ayay qaadan doontaa si aad u dareentid saamaynteeda oo jirka ku jiri doontaa ilaa dhowr saacadood.	Toban ilaa shan iyo tobani daqiqo si loo diyaariyo wax walba kabacdina waqtii aad u yar ayay qaadataa si ay daawadu u shaqayso.	Waxay qaadan kartaa ilaa 20 daqiqo si loo diyaariyo wax walba. Kaddibna waxay qaataa ilaa 20 daqiqo si daawada suuxinta u shaqayso (midda iskugu jirta xanuu jabinta iyo suuxinta oo loo yaqaan CSE si ka dhaqso badan midda suuxinta kaliya ayay u shaqaysaa maadaama laf-dhabarka lagu durayo)

<b>Ma jiraa wax ama daawo dheeraad ah?</b>	Maya.	Maya.	<p>Waxaa kugu socon doontaa faleebbadu. Lagana yaabaa in “monitor” lagugu xiro si loo ilaalinayo garaaca wadnaha ilmahaaga. Waxaana la cabbiri doonaa oksijinkaaga si laguu siyyo in dheeraad ah haddii aad u baahatid.</p>	<p>Waxaa kugu socon doontaa faleebbadu. Kaadi-qaad ayaa laga yaabaa in lagugu xiriro Waxaa dhici kartaa in lagugu xiro “monitor” lagu ilaalinayo garaaca wadnaha ilmahaaga.</p>
<b>Khatarada xagga cunugta?</b>	Waxba.		<p>Waxaa dhici kartaa in ilmuhi si tartiib ah u neefsato, isla markaasna waa surtagal in uu dareemo lulmood. Inta horena waa surtagal in ay ku adagtayah in ilmuhi qaado caanaha.</p>	<p>Inta hore waa surtagal in ilmuhi si tartiib ah u neefsado.</p>
<b>Saameynta xagga hooyada?</b>	<p>Waxaa keeni karaa xoogaa lallabo. Ama wareer. Ama daal. Iyo af qallalan.</p>		<p>Waxaa laga yaabaa in umushu dareento daalo ama lallabo. Waxaa kale oo dhici kartaa in dheefshidka cuntadu gaabto or ay hooyadu dareento dhereg. Waa surtagal in uu keeni karo in hooyadu si tartiib ah u neefsato.</p>	<p>Daalo ama lallabo. Neefsasho tartiib ah – waa in aad joojiso in aad isticmaasho daaweyntaas haddii ay keeniso daalo badan. Joojinta neefsashada waana keeni kartaa in wadnaha si tartiib ah u garaaco (dhif).</p>
<b>Saameynta xagga foosha?</b>	Waxba.	Waxba.	Waa surtagal in la isticmaalo wax birqabato ah si loo bixiyo ilmaha.	<p>Waxaa laga yaabaa in riixitaanku kugu adkaado oo birqabato la adeegsado si loo soo bixiyo ilmaha.</p>

<b>Hbab kale</b>	<b>Barkad yar</b>	<b>Aaladda loo yaqaan ‘TENS’</b>	<b>Hbab kale oo daawo la’aan ah</b>
<b>Waa maxay?</b>	Barkad yar ama qubeys oo biyo diirran ku jiraan oo lagu ummulo.	Qulqul koronto yar oo aan halis ahayn oo la soo mariyo waxyaalo yaryar oo bac ah oo dhabarka la saaro.	Hbab ama daaweymo oo loo kala yaqaan ‘Acupuncture’, ‘Accupressure’ ama ‘Hypnotherapy’
<b>Maxaad sameynaysaa?</b>	Ku jiifso biyaha dhexdooda waqtiga foosha iyo xoogaa markaa ilmuhi dhalanayo.	Waxaad riixaysaa aaladda badhankeed si aad u qiyasatid xoogga korontada aad rabtid.	Waa in aad ballansatid in dadka daaweynkaas sameeyaan si ay kuula joogi doonaan waqtiga foosha.

<b>Intee bay daawadu xanuunka joojisaa?</b>	Waa surtagal in daaweyntay ay ku caawiso in aad ku nasato oona yareyo xanuunka foosha.	In yar. Kabuubyada ama jiriiricada aad dareemi doontid waxay kaa yareynaysaa xanuunka. Waa daaweyn ugu habboon si loo yareeyo xanuunka dhabarka bilowga foosha.	Waa surtagal in daaweyntu ay ku caawiso in aad nasato oona yareyo xanuunka foosha.
<b>Muddo intee le'eg ilaa daawadu bilaabaysaa in ay wax qabto?</b>	Isla markiiba.	Shan daqiqo si loo saaro dhabarka waxyaalaha bac ah oona diyaariyo aaladda.	Isla marka daaweyntu bilaabato.
<b>Ma jiraax wax ama daawo dheeraad ah?</b>	Maya.	Maya.	Maya.
<b>Khatarada xagga cunugta?</b>	Dhibaatooyin neefsashada iyo wax caabuq ama infekshan ah oo ku jiraan biyaha (dhif).	Waxba.	Waxba.
<b>Saameynta xagga hooyada?</b>	Waxba.	Waxba.	Waxba.
<b>Saameynta xagga foosha?</b>	Waxba.	Waxba.	Waxba.
